2. Why What prompted me to do something
extraordinary/unique/unprecedented/explicitly
conscious

as for a Good Guy

(who all wished this lives)

+ som, often, careers!)

was a unique collection (+ regime)

of experiences (ie. mentors: like paedi
+ ^{Rosen} experts: Eaton, Rudy)

wished for it (or, my own: her's death):

3. Benefits

but became Moto's death

benefit —
basis for
guilt —
and ~~weakness~~
or compensation
present, death
or loss

first we hear a lifetime
of either — or both —
— disappointing her
— big reptile of her
— acts to please her

(non-concert piano
contrived for { lessons, practice
3 years after } Music 51
her death — tell for '49!
composing, conducting

could do what (even) & wanted:
as long as # lived

Does "survive" after
benefit from others
death — other than
of living? (as I did)
(examples after seen
as surviving at expense
of the dead)

(which could not be
widely long:

USMC 1954-57

Clinic, 1947

Sgt-ding 1964

VN, 1965-67

("The Long Wait"
"Social Call"
Stories: Rourin

(I would have sent prison, after appeal
if convicted)
